Dear Mr. Major:

With reference to your Application for a Fill Permit for permission to fill Lot 35-A in Block 225, the Township Committee has reviewed reports from the Building Inspector and Township Engineer and will require that you file a before and after general and detailed check plan prepared by a licensed professional engineer showing the areas to be filled, the before and after elevations, the drainage courses, the type and source of the material to be used for fill and a time schedule.

May I remind you that no filling shall be done until the above information is furnished and approved by the Township Committee. If you have any questions please do not hesitate to contact me.

Very truly yours,

F. J. Rossi  
Clerk/Administrator
